Intelligent Security Integrated Seal (ISIS)

Submitted by: Security Seals Limited (SSL)
September 11 2001

The atrocities committed on this day changed forever how the US and the rest of the world viewed security and control of their borders.
What is C-TPAT?
Customs Trade Partnership Against Terrorism

CT-PAT is a joint US government-business initiative to build cooperative relationships that strengthen overall supply chain and border security.

CT-PAT recognizes that Customs can provide the highest level of security only through close cooperation with the ultimate owners of the supply chain, importers, carriers, brokers, warehouse operators and manufacturers.

Through this initiative, US Customs is asking businesses to ensure the integrity of their security practices and communicate their security guidelines to their business partners within the supply chain.

What is SEP?
Secure Export Partnership Agreement

SEP is a joint NZ government to business initiative to build cooperative relationships that strengthen overall supply chain and border security for exports worldwide not just the US. It meets all the standard US security requirements.

SEP recognizes that Customs can provide the highest level of security only through close cooperation with the ultimate owners of the supply chain, importers, carriers, brokers, warehouse operators and manufacturers.

Through this initiative, NZ Customs is asking businesses to ensure the integrity of their security practices and communicate their security guidelines to their business partners within the supply chain.
Secure Trade in 2007

“A Viable Solution”

The ISIS e Seal

A Tamper Indicative
2 Door Electronic Sealing
Solution
for Secure Shipping

Intelligent Security Integrated Seal

The ISIS e Seal

- Easily installed around the Container’s two door locking bars at waist height
  and finally secured with the Klicker bolt seal into the door lock.
The ISIS e Seal

- Endorsed with UK/US Customs approval
- Combines the proven security features and strengths of the MegaFortris Cable Lock seal (MCL250) and the Klicker bolt seal with leading edge RFID technology.
- Both these seals are certified compliant with ISO/PAS17712 and C-TPAT.

Intelligent Security Integrated Seal
Typical Implementation

- **ISIS Secure Access Control**
  - Internet connection to ISIS Secure Data Centre

Technologies and Products

- ISIS is technology agnostic (“Future Proofing”)
- ISIS can provide for the client an end to end solution
- ISIS will provide the client with the right solution for their needs
- ISIS’s products are commercially available, Tried and Tested and not prototypes
ISIS Network

- ISIS’s proprietary software enables the client to comply with various government and industry mandates.
- ISIS provides for the client the ability to be notified when the container is tampered.
- ISIS provides the client track and traceability of their shipments.
- ISIS allows the client to reduce risk and costs associated with container transportation.

ISISsecure Software

- “Future Proofed” (not limited to one technology)
- Value added functionality Regulatory Compliancing (CTPAT/CSI/WCO/SEP etc…)
  - Consignment (Carter’s) Note
  - Alerts
  - Track and Trace Visibility
- Future Developments
  - Customs Lodgment
  - Real Time Track and Trace
**Solutions**

- Seal Management
  - Central Repository
  - Carter’s Note / Manifest / Waybill details
  - Seal assignment by container
  - X-Ray image and other sensor data associated with container and seal
  - Automatic notification of exception (tamper / wrong port)
  - Accountable appropriation of blame for non-compliance
  - Track and Trace Visibility
  - Covert operational management

**ISIS e Seal Global Strategy**

- ISIS is in discussions with a number of Global players about its rollout strategy
- ISIS is currently conducting RFID trials or offering tenders/OEM agreements in other countries

**System Participants**

- Security Seal Manufacturers
- RFID Tag Manufacturers
- Seaport and Railway Operators
- Transport Operators
- Freight Forwarders
- Law Enforcement
- Customs Officers

**Intelligent Security Integrated Seal**

"The results show that the ISIS E Seal works in a “real world” environment by indicating tag ID and electronic tamper at a point of read in a multitude of environments”

**Intelligent Security Integrated Seal**

The ISIS e Seal is the solution of choice for all Industry and we invite your participation in this initiative.

By leading with a vision you can now make smart choices with smart solutions
