Republic Act 7722:

“Analysts of the **knowledge society** or **knowledge economy** characterize the university not just as a generator of knowledge, an educator of young minds and a transmitter of culture but also as a major agent of economic growth. It is both a **Research and Development laboratory** and a mechanism through which the nation builds its **human capital** to enable it to actively **participate in the global economy**.”

13

Reform Initiative 1

Policy Standard to Enhance Quality Assurance (QA) in the Philippine Higher Education through an Outcomes-Based and Typology-Based QA (CMO 46)

Goal: To enhance the quality assurance system of Philippine higher education through learning competency based standards and an outcomes-based system of quality assurance that is differentiated by type of HEIs

14

Reform Initiative 2

Purposive Research and Development, and Extension Programs

Goal: A strong research culture and innovation ecosystem that may lead to new technological innovations and better ways to solve economic and social issues through the following six multidisciplinary and trans-disciplinary research platforms :

- | | |
|------------------------------------------------------------------|----------------------------------------------------------------------------------|
| a) Food Production and Security | d) Smart Analytics and Engineering Innovations |
| b) Environment, Disaster Preparedness, Climate Change and Energy | e) Health Systems |
| c) Terrestrial and Marine Economy: Biodiversity and Conservation | f) Education for Science, Technology Engineering, Agri-Fisheries and Mathematics |

15

Reform Initiative 3

Science, Technology, Engineering, Agri-Fisheries and Mathematics as anchors for Normative Funding of State Universities and Colleges

Goal: Increased annual budgetary allocation for SUCs with programs that fall under Science, Technology, Agri-Fisheries and Mathematics (STEAM). These innovation-driven programs are also given top priority in the distribution of Capital Outlay budget
