01 Background
02 Work Plan
03 Outcomes
01 Background

UN Sustainable Summit

From 25 to 27 September, 2015, the seventieth session of the General Assembly was held

Outcomes

the outcome document of the post-2015 agenda

“Transforming our world: the 2030 Agenda for Sustainable Development” (Agenda 2030)
In the document, 17 sustainable development goals were identified:

1. End hunger and ensure access by all people
2. End all forms of malnutrition
3. Double the agricultural productivity and incomes of small-scale food producers
4. Ensure sustainable food production systems and implement resilient agricultural practices

End hunger, achieve food security and improved nutrition and promote sustainable agriculture.

Strengthen the implementation means, to revive the sustainable global partnership for development.
01 Background

1. Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters
2. Integrate climate change measures into policies, strategies and planning
3. Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, and impact reduction

02 Work plan
Initiative: Promoting agricultural sustainable development

Chinese government will hold diverse forms of activities for discussions and sharing of experience, technology and best practices in agricultural sustainable development.

02 Work plan

1. Workshop on needs assessment for sustainable agriculture in APEC region and the “Food security-Climate-Resource Nexus”

2. APEC Small Peasants and Poverty Alleviation Symposium

3. Workshop on promotion of cooperation on scientific and technological innovation in increasing added value in food production chain

4. International Training Course and Forum on Marine Aquaculture
02 Work plan

1. Workshop on needs assessment for sustainable agriculture in APEC region and the “Food security-Climate-Resource Nexus”

   **Aims**
   - Assess the needs and gaps in terms of policy, technology and capacity building in APEC region for achieving SDGs

   **Significance**
   - Identify the co-benefit and tradeoffs between food security, climate change and resource management
   - Develop the technology pathways and policy recommendations for promoting sustainable agriculture

   **Timeline**
   - The workshop will be held in China by 2017

---

2. APEC Small Peasants and Poverty Alleviation Symposium

   **Aims**
   - Build a platform to share experience, strengthen capacity building and regional cooperation, and discuss future strategies for development of smallholders and poverty alleviation

   **Significance**
   - Strengthen capacity building on the perspective of poverty governance
   - Push forward small peasants development and poverty alleviation situations among APEC economies

   **Timeline**
   - Symposium will be held in China by 2017

Ministry of Agriculture of the People’s Republic of China
02 Work plan

3 Workshop on promotion of cooperation on scientific and technological innovation in increasing added value in food production chain

Aims
- Pursue a high-level food production system with high-added value within each economy

Significance
- Harmonization of high yield, productivity improvement and environment-friendly and integrated design will be conducted
- Jointly making great efforts in the field of cooperation on scientific and technology innovation increasing added value in food production chain

Timeline
- Workshop will be held in China by 2018

Ministry of Agriculture of the People’s Republic of China

02 Work plan

4 International Training Course and Forum on Marine Aquaculture

Aims
- Sharing on Fishery management, genetic breeding, aquatic disease control and aquaculture technologies
- Promoting on “Technology Innovation for Industrialization of Marine Aquaculture”

Significance
- Construct an international platform and offer comprehensive knowledge for APEC member economies
- Encouraging cooperation within APEC region

Timeline
- Training course will be held in 2019

Ministry of Agriculture of the People’s Republic of China
enable cooperation in food security and agricultural technologies and exchange of expertise and technologies

Research will be conducted for higher productivity and greater economic returns, while maintaining the emphasis on quality and environment protection.

Achieving the Sustainable Development Goals for eradicating poverty and hunger. Agricultural productivity and farmers' income will grow.
THANK YOU FOR Attention!

Ministry of Agriculture of the People’s Republic of China
