Day 2 Session 1

Food Control System in Malaysia

Submitted by: Malaysia

**First Expert Meeting on Trade Facilitation Through
an APEC Framework on Food Safety
Modernisation**

Ha Noi, Viet Nam

15-17 November 2017

The background of the slide is a blurred photograph of a wooden table. On the table, there is a metal spring and a wooden bowl. The word "Enforcement" is written in a red, serif font and is underlined.

Enforcement

**APEC Food Safety Cooperation Forum
15-17th November 2017, Ha Noi Viet Nam**

OUTLINE:

- 1. Current Status of Food Safety System**
- 2. Food Import Control Activity**
- 3. Food Export Control Activity**
- 4. Challenges**
- 5. Future Direction**

CURRENT MANDATE OF FOOD SAFETY AND QUALITY PROGRAMME

CURRENT MANDATE OF FOOD SAFETY AND QUALITY PROGRAMME

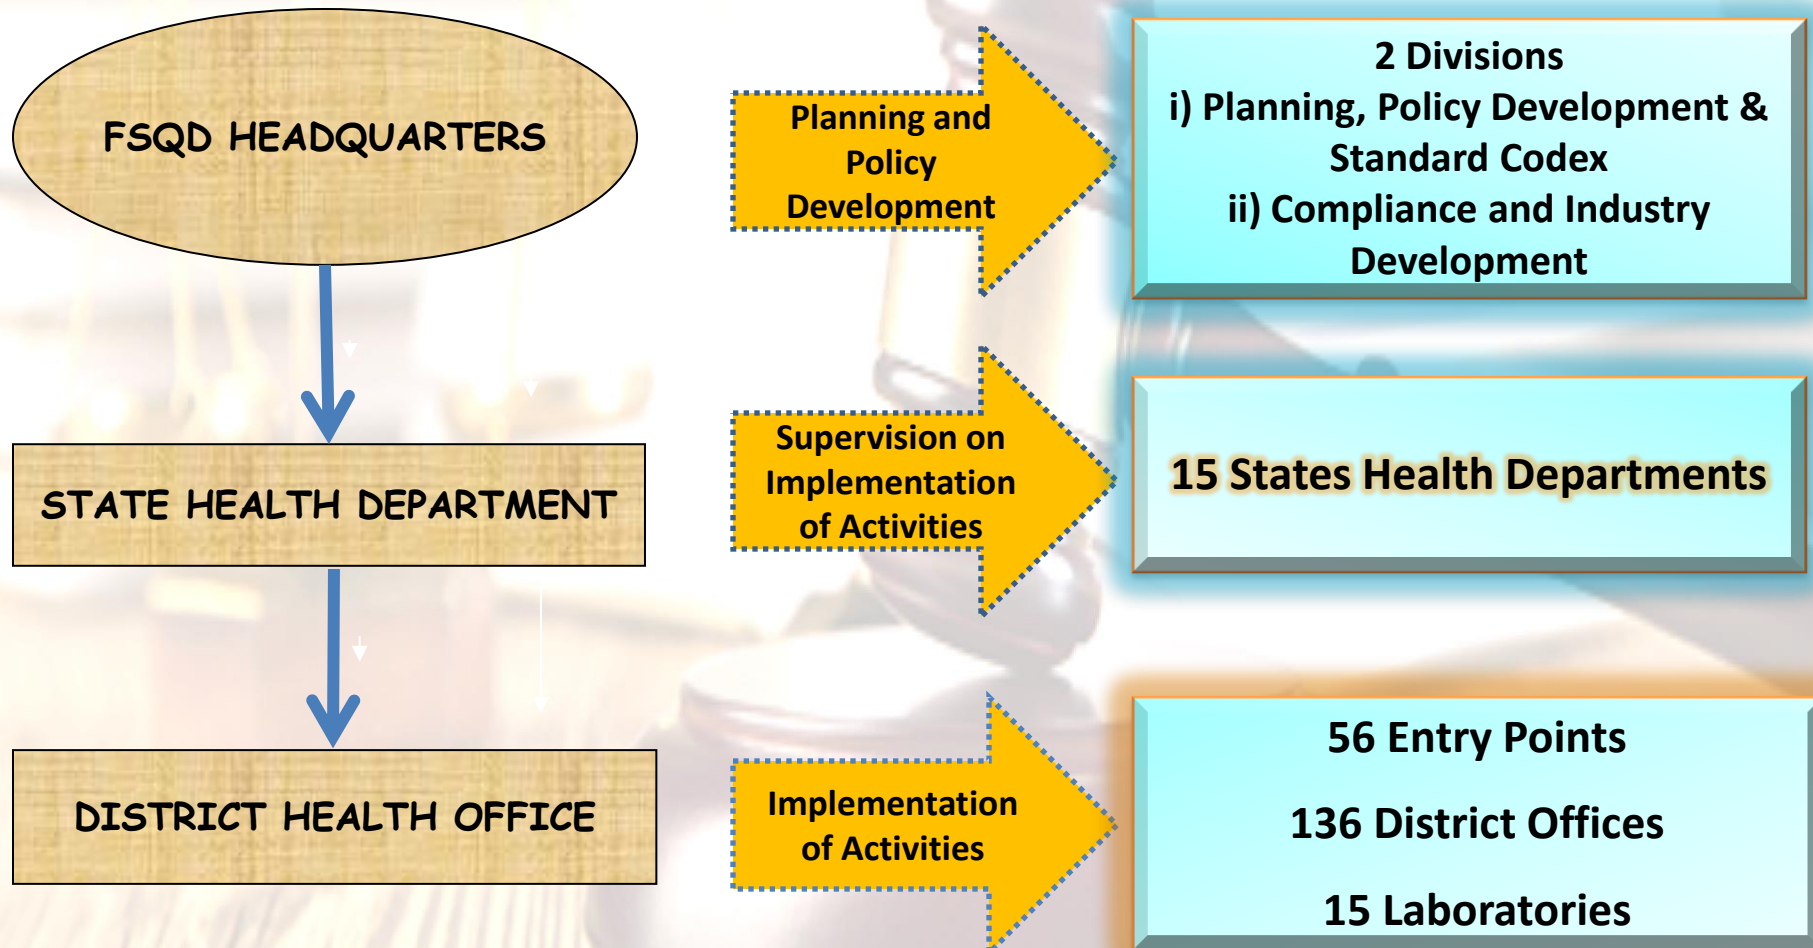

Food
Analyst
Act 2011

Food Analyst
Regulations
2013

FOOD SAFETY AND QUALITY PROGRAMME STRUCTURE

FOOD IMPORT CONTROL ACTIVITY

To Ensure Food Imported Into This Country Is Safe And Complies With The Food Act 1983 & The Food Regulations 1985.

MOH Role In Import Control

Assisted by Food Safety Information System of Malaysia (FoSIM) – an intelligent web-based information system to enhance the management of food safety surveillance

Food Import Requirements of Malaysia

Safe for human consumption

Food standards

General labeling requirements

Nutritional labeling requirements

Food Safety Information System of Malaysia (FoSIM)

Risk-based

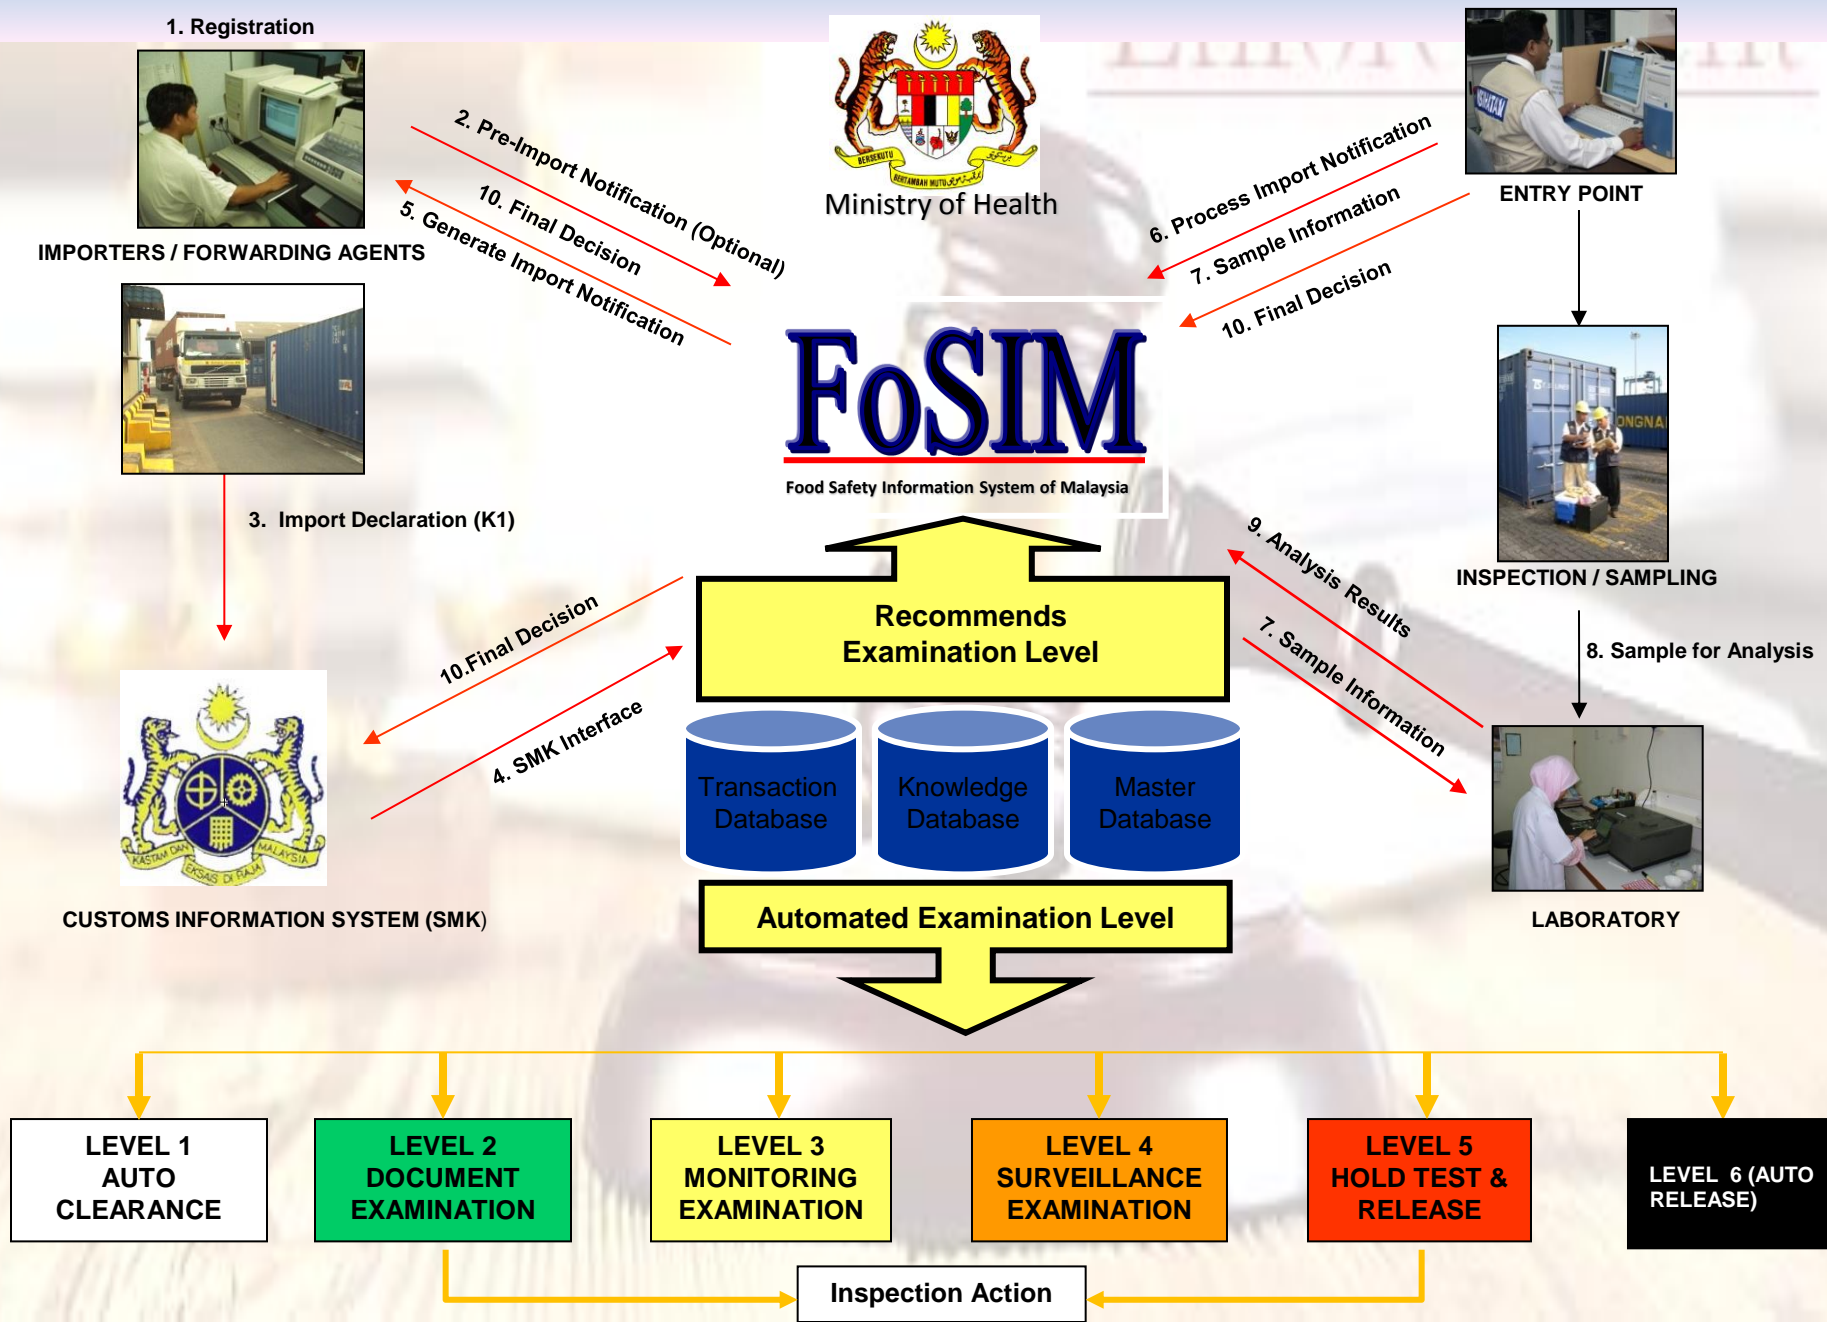

Other related legislations e.g. MAQIS, DOA, DVS, DOF, Sabah, Sarawak etc

Food Safety Information System of Malaysia (FoSIM)

FoSIM is an intelligent web-based information system developed to assist the management of food safety surveillance to ensure food sold in Malaysia is safe for human consumption.

The system interfaces with Customs Information System (SMK) allowing importers, agents and Ministry of Health Officials to manage food importation activities electronically using IT and uses risk based approach in determining food safety hazard of imported food.

FOOD SAFETY INFORMATION SYSTEM OF MALAYSIA – FOOD IMPORTATION PROCESS

FOOD EXPORT CONTROL ACTIVITY

MOH Role In Export Control

- ☐ Responsible for ensuring food for export is safe along the food supply chain and is in compliance with the importing country's requirements
- ☐ Compliant listing and registration of food export establishments
- ☐ Official control (e.g. verification, monitoring programme)
- ☐ Investigation of food rejection notification
- ☐ Inspection of food export establishment
- ☐ Issuance food export certificates (e.g. Health Certificate, Free Sale Certificate, Non-Genetically Modified Food Certificate)

CHALLENGES

Harmonization of standard

Traceability

Data confidentiality

Continuously capacity building: Training for all technical involved especially in IT capabilities, system operation and administration

FUTURE DIRECTION OF FOOD SAFETY & QUALITY PROGRAMME

CURRENT TREND

- Responsibility for ensuring compliance to food safety requirements is being transferred to the exporting countries and importers
- Multi-lateral & bilateral agreements

FUTURE DIRECTION

- Mutual recognition and equivalence of food safety control system of authority
- Risk-based approach

Enforcement
