Project Summary	This project will collect best practices of leading professionals, and develop career path and roadmap to meet the needs of businesses, government agencies, education institutes, and standards organization in the APEC region. This project is linked to (Rank 1) APEC Priorities - standards/conformity assessment, human development.

This project includes following activities and timeline:

- 1) Project Survey: A written survey on career development will be circulated to SCSC Members in Aug-Nov 2017. Leading experts in domestic and international standards and conformance will be the main target.
 - 2) Workshop: A Best Practices Workshop to develop career path and vision for young generation will be organized. The workshop will be held in tentatively Singapore in cooperation with IEC and ISO regional offices, days prior to 2018 SCSC 1.
 - 3) Report: A draft report will be presented at SCSC2 in August 2018 and circulate it for comments by SCSC Members for a month, and final report will be ready Oct 2018.
