guiding, promoting, regulating, protecting the outward investment cooperation of Chinese enterprises.
China’s Outward Investment

By the end of 2017, Chinese domestic investors had established 39.2 thousand FDI enterprises in 189 economies globally.

The accumulated outward FDI net stock reached more than $1800 billion, ranking 2nd place among all economies.
Practices In Promoting Chinese Outward Investment

1. Simplify the approval procedures
2. Improve public services
3. Strengthen international cooperation
In 2009, MOFCOM promulgated the Administrative Measures for Outward Investment and revised it in 2014, which simplified the approval procedures and implemented the management model of "mainly filing, supplemented by approval".
Since 2015, we have implemented paper-free management for outward investment filing to further enhance the facilitation. At present, more than 99% of outward investment has realized the filing management, and the required time does not exceed three working days.
We build and improve the "going global" public service platform to provide one-stop services such as policy consultation, investment information and online services for enterprises to implement outward investment.
Compile and revise the Training Textbooks for Transnational Business Management Talents.
Training courses for outward investment cooperation to help enterprises train talents and improve their international business level.

Always Advocate Responsible Outward Investment

1. • operate in accordance with the laws and regulations abroad;

2. • labor employment, entry and exit management, safety in production and tendering and bidding;

3. • protect the local environment and actively fulfilling social responsibilities.
The Future Working Plan

Encourage and support Chinese enterprises with strength and reputation to invest abroad and take part in building the "Belt and Road".

- realize their own development of the Chinese enterprises;
- promote the upgrading of the domestic industry and the economic and social development of the host economy;
- promote the healthy and sustainable growth of the Asia Pacific region and the world economy.
Thank you.
