Financing Health Across the Life-Course: Learning from Trends in and Models of Sustainable Immunization Financing

9th APEC High-Level Meeting on Health & the Economy

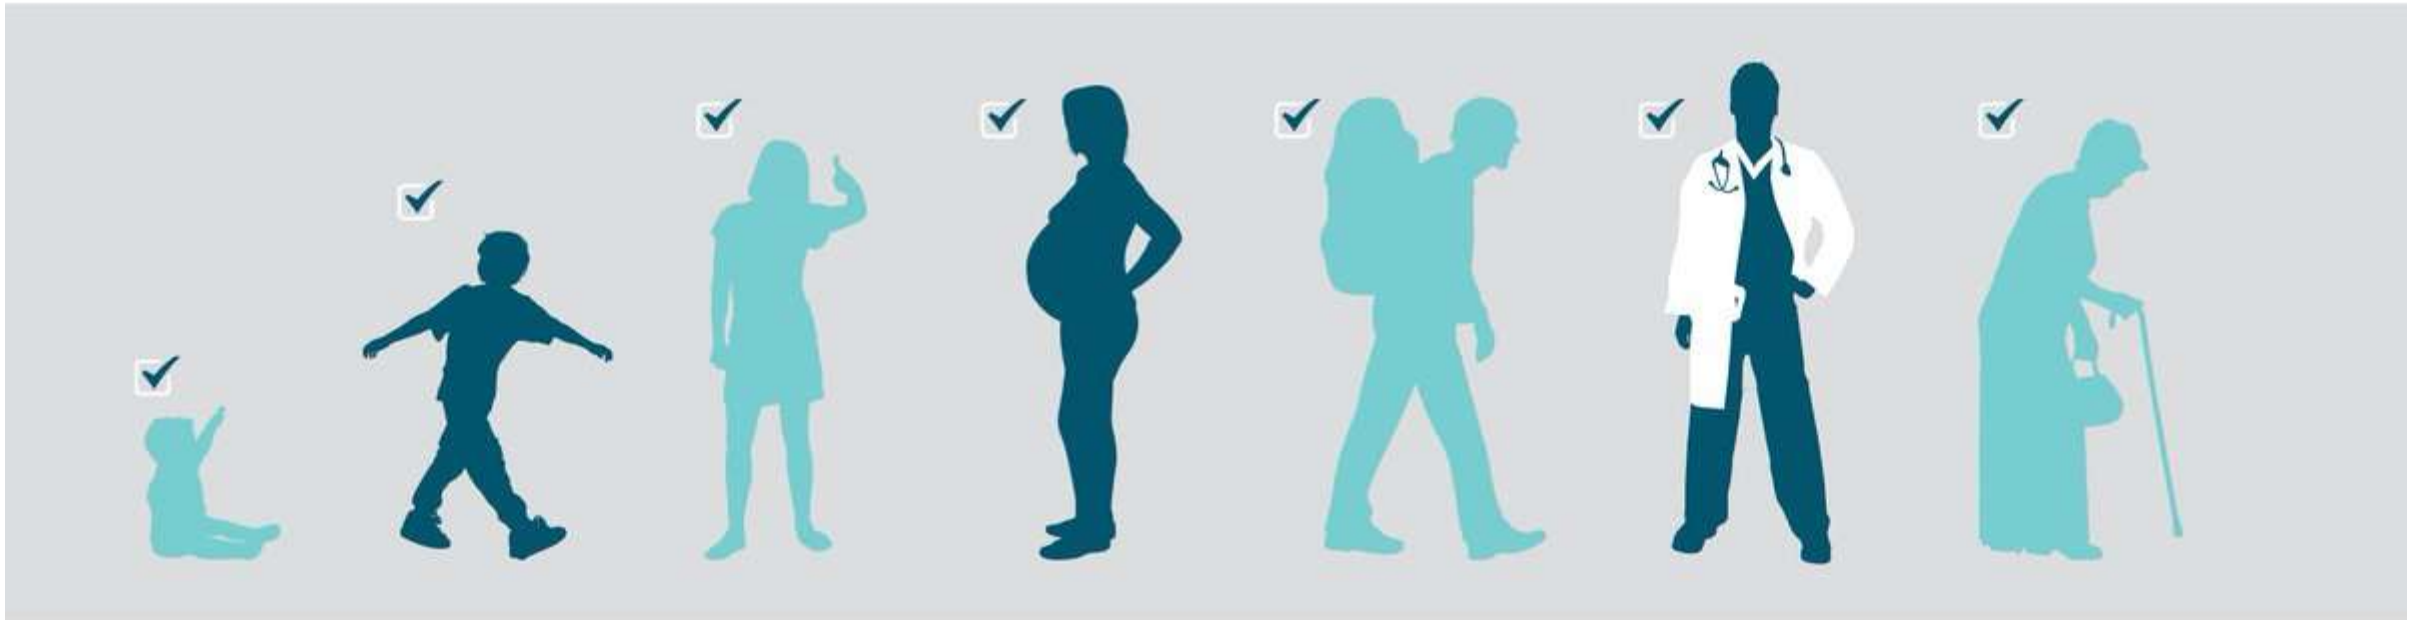

“Healthy Economies in an Aging World”

20-21 August 2019 | Puerto Varas, Chile

Vaccination across the life-course is an important part of healthy aging

A life-course approach contributes to individual health, population health, and broader benefits for health systems, society and the economy*

Common immunization financing challenges
