E-Commerce has become essential

Selected industries worldwide as of October 2020

Source: Statista 2021
Challenges for Business

• Over 80% of E-Commerce shipments are below 100 Euro*
• Complex import rules designed for traditional shipments, duty and tax rate structures, classification and valuation, are applied to low value shipments
• E-commerce = exporting to the world
• Lack of expertise to comply; need for Customs broker services increase cost
• Lack of simple procedures and global standards
• No landed cost for buyer
• Compliant MSMEs are deterred from exporting
• Consumers are deterred from buying

*Source: International Post Corporation (IPC), CROSS-BORDER E-COMMERCE SHOPPER SURVEY 2020, Feb 2021
Challenges for Customs/Governments

• Traditional focus on carrier and importer
• Reduced visibility into point of sale; source of info
• Decreased level of compliance
• Loss of potential revenue
OUR PROPOSAL:

Simplified collection system for low-value shipments based on a set of principles:

- Low-cost, simplicity, ease of implementation and compliance
- Off-the-border collection; focus on vendor; simple registration
- Border formalities focused on health, security, safety; IRG
- No discrimination between foreign and domestic vendors

*The two thresholds (de minimis, under which no duty or tax is collected, and informal entry, under which the simplified collection process applies) would be for each economy to set depending on their individual circumstances.*
Possible Implementation Options:

- For low value B2C shipments, category 3 of the IRG, e.g. 1,000 SDR (~1,400 USD)
- Goods not subject to prohibitions and restrictions
- Simple classification, e.g. using chapter 98
- Simple duty or tax rate structure

Common Features

- Vendor based; source of information
- Simple vendor registration
- Central duty/tax rate Repository
- Standard API; automated duty/tax rate look-up
- Self-assessment
- Border Process based on IRG
  - Advance electronic data
  - Pre-arrival risk assessment
Central Duty/Tax Rate Repository

• Collection of official duty and tax rate info for LVS
• Official and legally valid/binding
• Each Economy to have official access/contact point
• Could start with APEC and a few piloting economies; could be hosted by WTO for long term upscaling

Tax/ Duty / Flat Rate?

FOREIGN VENDOR

OFFICIAL TAX/DUTY INFO

X%

- Landed cost for consumer
- Vendor collect; self-assessment
- Reduction of undervaluation risk
- Open source; plug-in for online shops
Action Required

At International Level

• Endorse the concept
• Discuss and agree on a standard for entity identifier and verifiable credentials
• Set up a central repository on duty tax rate information
• Maintenance mechanism

At Domestic Level

• Determine low value shipment threshold
• Decide which option
  – Option 1: Follow WCO Recommendation
  – Option 2: Keep duty rates at a minimum, not more than 3
  – Option 3: Keep tax rate at a minimum, ideally only 1
Next Steps

• Technical Papers for the three options
  – Paper for Option 2 published on www.global-express.org

• Identify a champion and a technical working body to advance the LVS proposal; co-creation

• APEC Pathfinder?
