Agenda Item: 8.2

Study on Building an International Joint Governance System of Food Safety

Purpose: Consideration
Submitted by: China

**8th Food Safety Cooperation Forum
28-29 May 2021**

Study on Building An International Joint Governance System of Food Safety

The APEC Food Safety Modernization Framework sets out principles for the responsibilities of relevant parties consumers and research institutions.

1

the international food trade need "taking respective responsibilities" by all relevant parties.

2

the international food trade need also "coordination and cooperation"

CHINA

China has implemented a self-financing program in 2020, namely, Workshop on the Application of Principle 7 "Shared Responsibility" in Import and Export Food Safety Management of APEC Food Safety Modernisation Framework, with over 100 participants from 15 economies participating in the program questionnaire and research, which was presented at this conference.

NEXT

- 01** Proposing to study and develop an initiative on "shared responsibility and joint governance" for import and export food safety in the APEC region
- 02** Convene seminars and training on transparency measures on import and export food safety regulations of APEC economies
