e-Transport License for carrying imported timber to destination

Document of Self-Declaration for private land

A form titled 'Self-Declaration : SD' with various fields and a table. A blue box highlights a section of the form, and a blue arrow points from the text 'Coordinate of Lat-Long source' to this section.

Coordinate of Lat-Long source or X..... Y.....

Plantation log list form under Plantation Act

A form titled 'Plantation log list form' with a table containing columns for 'No', 'Date', 'Area', 'Volume', 'Species', 'Status', and 'Remarks'. The table has several rows of data.

The diagram illustrates a data pipeline with the following components and flow:

- Data Sources (Left):** Represented by a green box containing:
 - Sawmill
 - Factory
- Transform (Green Box):** An orange label below the green box, indicating the transformation step.
- Storage (Blue Box):** A blue box containing:
 - License
 - Checkpoint
- Transport (Orange Box):** An orange label above the blue box, indicating the transport step.

Flow: Arrows show the data flow from the Data Sources to the Transform step, then to the Storage, and finally back to the Data Sources via the Transport step.

Timber list for delivery
